*Submission and editorial instructions can be found on each publication’s homepage*

For subscription to the monthly E-Letter, please send an empty email to eletter-css-join@lists.it.utsa.edu
REGULAR PAPERS

Robust Dynamic Event-Triggered Coordination With a Designable Minimum Interevent Time ................................. J. Berneburg and C. Nowzari 3417

Stochastic Policy Gradient Ascent in Reproducing Kernel Hilbert Spaces .................................................. S. Paternain, J. A. Bazerque, A. Small, and A. Ribeiro 3429

Minimum-Gain Pole Placement With Sparse Static Feedback ................................. V. Katewa and F. Pasqualetti 3445

Heterogeneous Mixed Populations of Best-Responders and Imitators: Equilibrium Convergence and Stability ................................. H. Le and P. Ramazi 3475

Optimal Resource Procurement and the Price of Causality ........................................ S. Li, A. Shetty, K. Poolla, and P. Varaiya 3489

Detecting Generalized Replay Attacks via Time-Varying Dynamic Watermarking ........................................ M. Porter, P. Hespanhol, A. Aswani, M. Johnson-Roberson, and R. Vasudevan 3502

Dynamic Droop Control in Low-Inertia Power Systems ........................................ Y. Jiang, R. Pates, and E. Mallada 3518

Approximate Nonlinear Regulation via Identification-Based Adaptive Internal Models ........................................ M. Bin, P. Bernard, and L. Marconi 3534

Finite-Time Synchronization of Impulsive Dynamical Networks With Strong Nonlinearity ................................. S. Zhu, J. Zhou, J. Lü, and J.-A. Lu 3550

A Fixed-Point Characterization of the Optimal Costate in Finite-Horizon Optimal Control Problems ........................................ M. Sassano and A. Astolfi 3562

Distributed Online Optimization for Multi-Agent Networks With Coupled Inequality Constraints ........................................ X. Li, X. Yi, and L. Xie 3575

Optimal Linear Encryption Against Stealthy Attacks on Remote State Estimation ................................. J. Shang, M. Chen, and T. Chen 3592

Marking Predictability and Prediction in Labeled Petri Nets ........................................ Z. Ma, X. Yin, and Z. Li 3608

Safe Reinforcement Learning Using Robust MPC ........................................ M. Zanon and S. Gros 3638

Noninterference Enforcement via Supervisory Control in Bounded Petri Nets ........................................ F. Basile, G. De Tommasi, and C. Sterle 3653

Angle Rigidity and Its Usage to Stabilize Multiagent Formations in 2-D ........................................ L. Chen, M. Cao, and C. Li 3667

Characterizations of Global Transversal Exponential Stability ........................................ V. Andrieu, B. Jayawardhana, and L. Praly 3682

(Contents Continued on Back Cover)
TECHNICAL NOTES

Converse Theorems for Integral Quadratic Constraints ........................................... S. Z. Khong and C.-Y. Kao 3695
Global Stabilization by Memoryless Feedback for Nonlinear Systems With a Limited Input Delay and Large State Delays ............................................................... C. Zhao and W. Lin 3702
Simultaneous Perturbation Stochastic Approximation-Based Consensus for Tracking Under Unknown-But-Bounded Disturbances .................................................. O. Granichin, V. Erofeeva, Y. Ivanskiy, and Y. Jiang 3710
Differentially Private ADMM for Regularized Consensus Optimization ................ X. Cao, J. Zhang, H. V. Poor, and Z. Tian 3718
Nonlinear MPC for Tracking for a Class of Nonconvex Admissible Output Sets ................ A. Cotorruelo, D. R. Ramirez, D. Limon, and E. Garone 3726
Analysis of the Least Sum-of-Minimums Estimator for Switched Systems ................ L. Bako 3733

Global Stabilization by Memoryless Feedback for Nonlinear Systems With a Limited Input Delay and Large State Delays ............................................................... C. Zhao and W. Lin 3702
Simultaneous Perturbation Stochastic Approximation-Based Consensus for Tracking Under Unknown-But-Bounded Disturbances .................................................. O. Granichin, V. Erofeeva, Y. Ivanskiy, and Y. Jiang 3710
Differentially Private ADMM for Regularized Consensus Optimization ................ X. Cao, J. Zhang, H. V. Poor, and Z. Tian 3718
Nonlinear MPC for Tracking for a Class of Nonconvex Admissible Output Sets ................ A. Cotorruelo, D. R. Ramirez, D. Limon, and E. Garone 3726
Analysis of the Least Sum-of-Minimums Estimator for Switched Systems ................ L. Bako 3733

Strong Stability Analysis of Linear Delay-Difference Equations With Multiple Time Delays ........ Y. Song, W. Michiels, B. Zhou, and G.-R. Duan 3741
On Constructive Extractability of Measurable Selectors of Set-Valued Maps ................ P. Osinenko and S. Streif 3757
A Necessary and Sufficient Graphic Condition for the Original Disturbance Decoupling of Boolean Networks .................. Y. Li, J. Zhu, B. Li, Y. Liu, and J. Lu 3765
Zero-Sum Game-Based Optimal Secure Control Under Actuator Attacks .................. C. Wu, X. Li, W. Pan, J. Liu, and L. Wu 3773

Constrained Nonlinear Discrete-Time Sliding Mode Control Based on a Receding Horizon Approach .................. M. Rubagotti, G. P. Incremona, D. M. Raimondo, and A. Ferrara 3802
Adaptive Decentralized Output-Feedback Control Dealing With Static/Dynamic Interactions and Different-Unknown Subsystem Control Directions .................. Z. Zhang, Y. Song, and C. Wen 3818
System Identification With Binary-Valued Observations Under Data Tampering Attacks .................................................. J. Guo, X. Wang, W. Xue, and Y. Zhao 3825
Distorted Nash Equilibrium Seeking for Games in Systems With Bounded Control Inputs .................. M. Ye 3833
Control of Nonlinear Uncertain Systems by Extended PID ......................................... C. Zhao and L. Guo 3840
Sliding-Mode-Observer-Based Time-Varying Formation Tracking for Multispacecrafts Subjected to Switching Topologies and Time-Delays .................. Y. Yuan, Y. Wang, and L. Guo 3848
Wasserstein Distributionally Robust Stochastic Control: A Data-Driven Approach ................ I. Yang 3863
Adaptive Incentive Design .................................................. L. J. Ratliff and T. Fiez 3871
Passivity Analysis of Replicator Dynamics and Its Variations .......................... M. A. Mabrok 3879
Saturated Lipschitz Continuous Sliding Mode Controller for Perturbed Systems With Uncertain Control Coefficient .................. C. A. Martínez-Fuentes, R. Seeber, L. Fridman, and J. A. Moreno 3885

Cover credit: Illustrations of optimal transport in formation control applications where swarms transition between different configurations. (Image credit: Jason Harlow.)

28 Optimal Transport for Applications in Control and Estimation
An introduction to the special issue
YONGXIN CHEN, JOHAN KARLSSON, and AXEL RINGH

34 Optimal Transportation Methods in Nonlinear Filtering
The feedback particle filter
AMIRHOSSEIN TAGHVAEI and PRASHANT G. MEHTA

50 Control and Estimation of Ensembles via Structured Optimal Transport
A computational approach based on entropy-regularized multimarginal optimal transport
ISABEL HAASLER, JOHAN KARLSSON, and AXEL RINGH

70 Optimal Transport on Networks
An introduction to the differences between discrete and continuous spaces with an application in path planning
HAOMIN ZHOU

82 Controlling Uncertainty
Schrödinger’s inference method and the optimal steering of probability distributions
YONGXIN CHEN, TRYPHON T. GEORGIOU, and MICHELE PAVON

4 FROM THE EDITOR
Embodied Control

6 ABOUT THIS ISSUE
Optimal Transport in Estimation and Control

9 PRESIDENT’S MESSAGE
Millions of Units to Make an Energy Transformation—and to Be Controlled

14 25 YEARS AGO
A feature article typically provides an in-depth treatment of either an application of control technology or an innovation in control education. IEEE Control Systems publishes a variety of columns. “Applications of Control” columns are industrially oriented summaries of innovations in control technology. “Focus on Education” typically describes some aspect of education such as novel control experiments. “Lecture Notes” can be theoretical in nature as long as they have clear tutorial value and intent. See recent issues for examples of these and other types of columns. Authors are encouraged to contact the editor-in-chief about the suitability of potential columns.

A detailed Author’s Guide, a sample formatted manuscript, and LATEX template can be found at http://www.ieeeccs.org/publications/csm/submissions. The specifications in this guide should be followed by all submissions. All manuscripts should be submitted electronically to the IEEE Control Systems website, https://css.paperplaza.net/conferences/scripts/start.pl, with inquiries on appropriateness of content emailed to r.sepulchre@eng.cam.ac.uk.

IEEE Control Systems encourages proposals for special issues. Proposers are encouraged to contact the editor-in-chief to discuss potential topics.

MEMBER ACTIVITIES
Girls in Control: Reaching Out With Control

CONFERENCE REPORTS
Attend the 2022 American Control Conference in Atlanta, Georgia

OBITUARY
Dr. Radhakishan Sohanlal Baheti, 1945–2021

CONFERENCE CALENDAR

Conference on
Control Technology and Applications
CCTA 2021

August 8–11, San Diego, USA

Initial Submissions
January 19, 2021 (Passed)

Decision Notification and Registration Opens
April 19, 2021

Final Submissions
May 24, 2021 (Passed)

https://ccta2021.ieeecss.org/
December 13–15, Austin, USA

Initial Paper Submissions to L-CSS with CDC Option Due:
March 4, 2021 (Passed)

Invited Session Proposals Due:
March 9, 2021 (Passed)

Initial Paper Submissions Due:
March 18, 2021 (Passed)

Workshop Proposals Due:
May 1, 2021 (Passed)

Decision Notification:
Mid-July, 2021

Final Submissions Due:
September 10, 2021

https://cdc2021.ieeecss.org/
American Control Conference
ACC 2022
June 8–10, Atlanta, GA, USA

LCSS Option Submission
September 14, 2021

Manuscript Submission
September 28, 2021

Acceptance/Rejection Notice
January 24, 2022

Final Manuscript Submission
March 15, 2022

https://acc2022.a2c2.org/
Conference on Control Technology and Applications

CCTA 2022

August 23–25, Trieste, Italy
